

CAVE from Stuttgart, Germany, is a new band consisting of very experienced and renowned musicians.

Chris Lorey, known from his work with the progressive Metal bands like IVANHOE and SCENES had the vision of an old school Hard'n Heavy band with progressive elements and a modern, up to date production. Chris had some sprawling sessions with various musician friends and at some point Roberto Palacios (CHINCHILLA, MY DARKEST HATE, GOBLINS BLADE) joined forces. After a few magic moments it was clear, these songs must be recorded and published properly! Drummer Steffen Theurer, an old band mate from Roberto could be convinced to record the drums in the studio. Since Roberto knows Ronny Munroe (ex-Trans Siberian Orchestra, Metal Church, Vicious Rumors) from some shows with his band with Metal Church they decided to ask him, since Ronny has one of the most unique voices in Hard Rock and Metal nowadays. After listening to the demos Ronny immediately decided to join the band. Since Steffen is very busy CAVE needed a permanent drummer, and this is here former CHINCHILLA drummer Chris Schwinn stepped on board.
